

CENTRIFUGAL SIFTER SCREENS

Gericke have over the past 40 years established themselves as a market leader in the manufacture of centrifugal sifters for most industrial processes in the food, chemical, pharmaceutical, plastic, dyestuffs and mineral industries

A critical part of any successful installation is the correct selection of the sieve hose or screen to ensure optimum performance

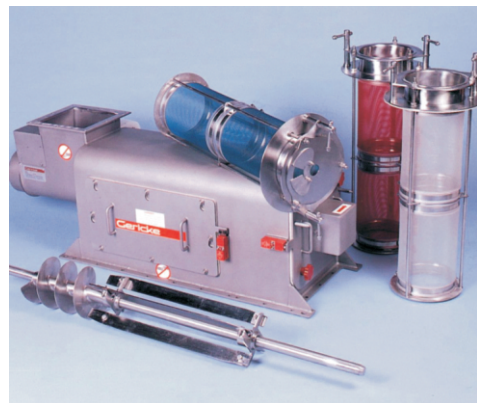

Gericke offer a comprehensive selection of hose materials, metal screens and manufacturing techniques using the latest tooling

Examples of the Gericke range include:

NYLON SCREENS

Available in a wide range of aperture sizes in precision woven white nylon.

- Coloured nylon screens available in red or blue
- Anti-static nylon screens (using carbon filaments and copper strip)
- Standard basket assembly incorporate tensioning rods for easy screen tensioning

Alternative screen designs are available to meet process requirements:

Our In-house test facility, design capability and manufacturing plant have provided solutions for many specialist applications

- Sewn seams
- Welded seams
- Natural non-toxic PVC or nylon cuffs
- Corded Ends available
- Double skinned screens
- 15 micron to 5mm aperture range
- Designs to fit all Sifter makes and models

WEDGE WIRE SCREENS

These are an all welded construction for strength and durability. The precise slot sizes are available down to 50 micron.

- Available in 316 or 430 (magnet detectable) stainless steel
- The unique wedge wire profile design reduces risk of pegging or blinding
- Recommended by major retailers for food applications
- Durable/long lasting
- Minimised maintenance inspection
- Suitable for a variety of applications and products
- Washable

PERFORATED PLATE SCREENS

- Very heavy duty
- Carbon steel or stainless steel
- Aperture Range 1mm to 10mm

WOVEN WIRE SCREENS

- Available in stainless steel or carbon steel in a wide range of aperture sizes.
- Suitable for abrasive materials

SERVICE

- Gericke have over 40 years experience of screen selection and manufacture
- Standard nylon screens available ex-stock
- Supplied to suit any make or model of sifting machine
- Excellent quality at competitive price from in-house manufacture
- Larger orders can be supplied on a call off basis with quantity discounts available
- Contact TONY WALLIS on our spares HOT LINE: 0161 308 6216 or e-mail t.wallis@gericke.net

A RAPID RESPONSE IS ASSURED FROM OUR OWN ON-SITE MANUFACTURING FACILITY
