Hygienic Progressing Cavity Pumps

Designed to meet the strictest food requirements, the Hygienic Progressing Cavity Pump is ideal for fragile food products handling.

• Application Fields

- Hygienic applications in the food industry
- Hygienic applications in the chemical industry.
- Hygienic applications for fluid to viscous media with and without solids.

The Sydex Hygienic Progressing Cavity Pumps comply with CE 1935/2004 EU requirements which guarantee the materials compatibility with food products and equipment traceability.

• Technical Performances

- Flowrate: up to 140 m³/h [616 USGPM]
- Pressure: up to 24 bar [348 psi]
- Range: 36 models

• Advantages

- Robust design, clearest delivery time and best value for money in the market.
- Wide pumps models.
- Speed, agility and flexibility in production.
- Hygienic open pin joint system ensuring no contamination of pumped product.
- Seal housing specially designed to remove “dead areas”.
- FDA certified elastomers stators including white nitrile (stainless steel covers fitted as an option).
- Easy cleaning of the process line thanks to the stainless steel baseplate with support feet.

Sydex - A customer oriented company

As volumetric pumps manufacturer, Sydex designs, manufactures and markets progressing cavity pumps to transfer a multitude of Newtonian and non-Newtonian fluids, as well as grinders and conveyors. Sydex company was founded on the principles of quality management throughout all departments of the business, right through to total customer satisfaction, and the legendary reliability of our pumps.

Sydex is dedicated to providing the highest quality products and services that constantly meet or exceed customer expectations. The company's philosophy is that Quality assurance commences with the design of the product, and ends only when the customer obtains acceptable product function, perceived value and service. To this end, Sydex achieved TUV nord – ISO 9001:2015 quality certification in May 2007. In addition, our pumps can be provided with ATEX hazardous area certification by EUROFINS.
